EDUCATION

Sabancı University | İstanbul — **Sep 2022 - Jun 2027**
BSc. in Computer Science and Engineering

- *GPA* : **3.48/4.00**
- *Honors/Awards*: Sakıp Sabancı Incentive Scholarship, **%75** Scholarship
- *Course Highlights*: Software Engineering, Database Management Systems

SGH Warsaw | Warsaw, Poland — **Feb 2026 - Jun 2026**
Erasmus+ Exchange Student

Meram Science High School | 2018 - 2022

- Grade : 96.24/100

WORK EXPERIENCE

Softtech | İstanbul — **July 2026 - Oct 2026**
Software Engineer Intern

- Contributing to enterprise software development projects using **.NET** and **Spring Boot** within an **agile** development team.
- Using Docker, SonarQube, Azure DevOps, and SourceTree in development, code-quality, and version-control

Sabancı University – PURE (Program for Undergraduate Research) — **Jun 2025 - Sep 2025**
Research Assistant

- Developed **graph-based algorithms** and scanning strategies for route validation, evacuation, and aid delivery scenarios.

PROJECTS

RAWCTRL | E-commerce Website | Sabancı University — **Sep 2025 - Jan 2026**

- Built backend services for a **Spring Boot** microservices-based e-commerce platform, covering catalog, cart/wishlist, checkout, refunds, invoice PDFs, and email notifications.

Lexycon | Personal English Learning App — **Jun 2025**

- Developed a cross-platform English learning app with **Flutter**, featuring visual/contextual vocabulary learning, TTS pronunciation, quiz mode, mistake tracking, and movie phrase packs.

A Behavioral Data Science Study on Mobile Distraction — **Feb 2025 - Jun 2025**

- Analyzed daily lecture hours and phone pickup behavior using **Python**, Excel, and data visualization to identify patterns affecting digital focus.

Life as an Ottoman Bank Clerk | Sabancı University — **Sep 2024 - Jan 2025**

- Collaborated with Prof. Selim Balcısoy to **analyze data** on Ottoman Bank clerks and develop an engaging series using **artificial intelligence applications**.
